

Mader's Reptile and Amphibian Medicine and Surgery, 3 Edition

Divers & Stahl

Section 1: Practice Management & Development

- 1. Reptile Practice Management**
- 2. Reference Resources for the Reptile Clinician**
- 3. Understanding the Human-Reptile Relationship**
- 4. Veterinary Specialization**
- 5. The Importance of Herpetological Publication by Clinicians and Academics**
- 6. Statistics for the Clinician**

Section 2: Biology (Taxonomy, Anatomy, Physiology and Behavior)

7. Taxonomy, Anatomy and Physiology of Tortoises, Turtles and Terrapins
8. Taxonomy, Anatomy and Physiology of Snakes
9. Taxonomy, Anatomy and Physiology of Lizards
10. Taxonomy, Anatomy and Physiology of Crocodylians
11. Taxonomy, Anatomy and Physiology of Tuataras
12. Taxonomy, Anatomy and Physiology of Amphibians
13. Natural Behaviors
14. Conditioning and Behavioral Training
15. Stress and Welfare of Reptiles and Amphibians

Section 3: Husbandry and Management

16. General Husbandry and Management of Reptiles
17. Environmental Lighting
18. Disinfection
19. Quarantine
20. Snakes
21. Lizards
22. Management of Venomous Species
23. Tortoises, Freshwater Aquatic Turtles and Terrapins
24. Sea Turtles
25. Crocodylians
26. Tuatara
27. Nutrition
28. General Husbandry and Management of Amphibians

Section 4: Infectious Diseases and Laboratory Sciences

29. Bacteriology
30. Virology
31. Mycology
32. Parasitology Including Hemoparasites
33. Hematology
34. Clinical Chemistry
35. Hematology and Biochemistry Tables
36. Molecular Diagnostics
37. Immunopathology
38. Cytology
39. Biopsy
40. Necropsy
41. Commercial and Analytical Labs

Section 5: Techniques and Procedures

42. Handling and Physical Examination
43. Diagnostic Techniques and Sample Collection
44. Catheter Placement
45. Esophogastric Feeding Tube Placement
46. Hospitalization
47. Euthanasia

Section 6: Anesthesia

48. Sedation
49. General Anesthesia
50. Analgesia
51. Regional Anesthesia and Analgesia
52. Amphibian Anesthesia

Section 7: Diagnostic Imaging

53. Radiography - General Principles
54. Radiography - Lizards
55. Radiography - Snakes
56. Radiography - Chelonians
57. Radiography - Crocodylians
58. Ultrasonography
59. Computed Tomography
60. Magnetic Resonance Imaging
61. Scintigraphy

Section 8: Endoscopy

62. Diagnostic and Surgical Endoscopy Equipment
63. Endoscopy practice management and marketing
64. Diagnostic Endoscopy
65. Endoscope-Assisted and Endoscopic Surgery

Section 9: Medicine

66. Urology
67. Hepatology
68. Cardiology
69. Dermatology I (Skin)
70. Dermatology II (Shell)
71. Ophthalmology
72. Otorhinolaryngology
73. Gastroenterology I (Oral cavity, esophagus, stomach)
74. Gastroenterology II (Small and large intestines)
75. Gastroenterology III (Cloaca)
76. Pulmonology
77. Neurology
78. Oncology
79. Endocrinology
80. Theriogenology
81. Musculoskeletal
82. Vascular, Hematopoietic Immunology
83. Clinical Behavioral Medicine
84. Nutritional Diseases
85. Perinatology
86. Geriatrics
87. Emergency and Critical Care
88. Toxicology
89. Amphibian Medicine Overview

Section 10: Surgery

90. Surgical Equipment, Instrumentation and General Principles
91. Eye
92. Ear
93. Rhinarium
94. Oral Cavity
95. Venemoid surgery
96. Integument - Skin
97. Coeliotomy - Snake
98. Coeliotomy - Lizard
99. Prefemoral Coeliotomy - Chelonian
100. Transplastron Coeliotomy - Chelonian
101. Coeliotomy - Crocodilian
102. Respiratory Tract
103. Gastro-Intestinal Surgery
104. Urinary Tract
105. Reproductive Tract
106. Cloacal Surgery
107. Amphibian Soft Tissue Surgery
108. External Coaptation
109. Fracture Fixation

- 110. Spinal Surgery
- 111. Limb Amputation
- 112. Tail Amputation
- 113. Shell Surgery and Repair

Section 11: Therapy

- 114. Therapeutic Overview and General Approach
- 115. Routes of Administration
- 116. Antibiotic Therapy
- 117. Antifungal Therapy
- 118. Antiviral Therapy
- 119. Anti-Inflammatory Therapy
- 120. Anti-Parasitic Therapy
- 121. Mental Health Treatment
- 122. Nutritional Therapy
- 123. Chemotherapy
- 124. Radiation Therapy
- 125. Miscellaneous Drug Therapy
- 126. Allometric Scaling
- 127. Reptile Formulary
- 128. Amphibian Formulary
- 129. Low Level LASER Therapy
- 130. Wound Management
- 131. Rehabilitation and Physical Therapy
- 132. Alternative and Complimentary Therapies

Section 12: Differential Diagnosis by Clinical Signs

- 133. Snakes
- 134. Lizards
- 135. Chelonians
- 136. Crocodylians
- 137. Amphibians

Section 13: Specific Disease/ Case Summary

- 138. Abscesses
- 139. Acariasis
- 140. Regurgitation and Vomiting
- 141. Aural Abscess
- 142. Bites and Prey-Induced Trauma
- 143. Cloacal Prolapse
- 144. Cryptosporidiosis (Lizards)
- 145. Cryptosporidiosis (Snakes)
- 146. Urolithiasis (cystic calculi, cloacal uroliths)
- 147. Diarrhea
- 148. Digit Abnormalities
- 149. Dysecdysis
- 150. Dystocia

- 151. Gout
- 152. Hemoparasites
- 153. Hepatic Lipidosis
- 154. Herpesviruses of Tortoises
- 155. Hyperglycemia
- 156. Hyper and Hypovitaminosis A
- 157. Inclusion Body Disease
- 158. Secondary Nutritional Hyperparathyroidism
- 159. Neurologic Disorders
- 160. Paramyxoviruses
- 161. Periodontal Disease
- 162. Pneumonia
- 163. Pseudogout
- 164. Renal Disease
- 165. Shell Damage
- 166. Salmonellosis
- 167. Spinal Osteopathy
- 168. Tail Damage
- 169. Thermal Burns
- 170. Stomatitis
- 171. Scent Gland Adenitis
- 172. Mycoplasmosis and Upper Respiratory Tract Disease
- 173. Chytridiomycosis

Section 14: Population and Public Health

- 174. Zoonoses and Public Health
- 175. Working With Free-Ranging Reptiles
- 176. Medical Management and Rehabilitation of Sea Turtles
- 177. Commercial Reptile Farming
- 178. Large Zoo and Private Collection Management
- 179. Breeders, Wholesale and Retail
- 180. Laboratory Reptile and Amphibian Management
- 181. Conservation Issues
- 182. Herpetofauna and Ecosystem Health

Section 15: Legal Topics

- 183. International Legislation
- 184. European Legislation
- 185. US Federal Legislation
- 186. Forensics
- 187. Jurisprudence, Expert Reports, Testimony and Court Appearance
