

Textbook of Veterinary Diagnostic Radiology, 7 Edition By Thrall

Table of content

Section I: Physics and Principles of Interpretation

1. Radiation Protection and Physics of Diagnostic Radiology
2. Digital Radiographic Imaging
3. Physics of Ultrasound Imaging
4. Physics of Computed Tomography and Magnetic Resonance Imaging
5. Radiographic, CT and MR Contrast Media
6. Introduction to Radiographic Interpretation

Section II: The Axial Skeleton: Canine, Feline, and Equine

7. Radiographic Anatomy of the Axial Skeleton
8. Basic Principles of Radiographic Interpretation of the Axial Skeleton
9. The Cranial and Nasal Cavities: Canine and Feline
10. Magnetic Resonance Imaging Features of Brain Disease in Small Animals
11. The Equine Head
12. The Canine and Feline Vertebrae
13. Magnetic Resonance Imaging and Computed Tomography Features of Canine and Feline Spinal Cord Disease

Section III: The Appendicular Skeleton: Canine, Feline, and Equine

14. Radiographic Anatomy of the Appendicular Skeleton
15. Principles of Radiographic Interpretation of the Appendicular Skeleton
16. Orthopedic Diseases of Young and Growing Dogs and Cats
17. Fracture Healing and Complications
18. Radiographic Features of Bone Tumors and Bone Infections
19. Radiographic Signs of Joint Disease in Dogs and Cats
20. The Equine Stifle and Tarsus
21. The Equine Carpus
22. The Equine Metacarpal and Metatarsal Regions

23. The Equine Metacarpophalangeal and Metatarsophalangeal Articulation
24. The Equine Phalanges
25. The Equine Navicular Bone

Section IV: Thoracic Cavity: Canine, Feline, and Equine

26. Principles of Radiographic Interpretation of the Thorax
27. The Pharynx, Larynx, and Trachea
28. Canine and Feline Esophagus
29. The Thoracic Wall
30. The Diaphragm
31. The Mediastinum
32. The Pleural Space
33. The Heart and Pulmonary Vessels
34. The Canine and Feline Lung
35. The Equine Thorax

Section V: Abdominal Cavity: Canine and Feline

36. Principles of Radiographic Interpretation of the Abdomen
37. The Peritoneal Space
38. The Liver and Spleen
39. The Kidneys and Ureters
40. The Urinary Bladder
41. The Urethra
42. The Prostate Gland
43. The Uterus, Ovaries and Testes
44. The Stomach
45. The Small Bowel
46. The Large Bowel
